EXTRA NAKED TABLE BEER

Looking for somethin' light-bodied that won't let you down in the flavor department? Your quest ends here! Crisp, a little hoppy, and oh so quaffable, Extra Naked is ideal for drinking while celebrating the everyday - a reward after work, an easy pairing with nearly any food, something to sip while you contemplate the stars at night. Go ahead and crack one open - you earned it!

5.2% ABV, \$72 case

KEY LIME WHITE ALE

Inspired by the best dessert in all the land, Key Lime is super refreshing and a little tart with notes of graham cracker and spice. Brewed with lime juice, lime peel, and lactose, our spin on a classic Belgian witbier is easy-drinkin' enough for anyone to enjoy but complex enough to please even the most advanced palates!

4.3% ABV, \$72 case

WASTED LIFE IPA

Love hops? We sure do, so we crammed a completely irresponsible load o' lupulin into this fruity, dank (yet super balanced and drinkable) masterpiece of a beer: aromas of stone fruit, melon, and candied orange peel are balanced by a caramelly sweetness from the malt. Don't be surprised if your glass seems to empty itself over and over again!

6.6% ABV, \$78 case

SHUT UP KELLY! PORTER

We used to work with a girl named Kelly who didn't like dark beers until she drank this porter. Now she won't shut up about it! This beer is comfortably rich and smooth, reminiscent of a fine port or one of those \$8 chocolate bars. Even if you don't normally go for dark beer, you might be surprised by this one.

6.3% ABV, \$72 case

Hi there! We're Liz and Jared Kiraly, the owners and brewers of Bone Up Brewing Company. Founded in Everett, Massachusetts in 2016, Bone Up is a modern American farmhouse brewery: we brew our own interpretations of classic styles without conforming to rigid guidelines, based on availability of local and seasonal ingredients. We have our own proprietary yeast blend, which adds an added layer of complexity to every beer - it contributes lots of fruity aromas and a dry finish that begs for another sip. We're also heavy on brewing beers with stories behind them: be it a recipe designed to pair with the music of a local band, a pair of beers brewed for a wedding to represent the happy couple, or a brew made to honor the memory of a beloved past pet, our beer list is a representation of our lives and the people in our community. Cheers!
